TRACK AND TRACE FEATURE

Real-time updates on the vehicle's condition. These details are systematically categorized, facilitating users in efficiently monitoring vehicles on the portal.

REAL TIME VEHICLE LOCATION

SML Saarthi picks up vehicle location and display it directly over the map

NEAR BY

Helps you in finding the nearest dealer showroom, service center, spare parts seller & local mechanics at the push of a button

REPORT

One-demand Daily ignition Report & Trip Summary Report along with through route playback option and drive behaviour.

REMINDER

Get reminder for schedule service based on either the time period or the km's covered by the vehicle whichever is earlier.

ALERT TAB

Real time Exception alert like over speed, engine idling, harsh braking, high acceleration, vehicle battery health and engine on/off.

FUEL AND ADBLUE LEVEL

Fuel and Adblue are used to view real-time as well as the trip's details for the vehicle regarding the Fuel and Adblue. With the help of the graph a user can check the details regarding the stats and act upon them timely.

GEOFENCE SERVICES

Geo Fence allows users to create defined areas with the specified boundaries, serving as designated starting or ending points for the feature "routes". Users receive alerts when a vehicle enters or exits these defined areas, offering enhanced monitoring and security functionalities.
